Generation

*Each Ótimo and Ótimo Extended is sold individually

Beach Chair

The Ótimo offers ergonomic arm support for patients in the beach chair position, ensuring stability and comfort during seated or semi-seated surgical procedures.

Prone

When patients are placed in the prone position, the Ótimo safely supports their arms, promoting secure positioning and unobstructed surgical access.

Lateral

In the lateral position, the Ótimo is designed to provide optimal arm support, enhancing patient safety and maintaining proper alignment throughout the procedure.

Supine

For patients lying in the supine position, the Ótimo delivers exceptional arm support, facilitating precise ergonomic positioning with ease.
