

888-724-8763 781-982-7000 | www.schuremed.com
452 Randolph Street, Abington, MA 02351

Established in 1994, SchureMed was founded by company President and CEO, Peter Schuerch. Peter's talent for problem solving led him from the operating room to the board room. Peter is not only the President and CEO, but also an integral part of the design team.

SchureMed manufactures high quality surgical assistance devices for medical facilities all over the world. Up or down, big or small, SchureMed is putting you, and your patients, in a better position.

OUR MISSION

Our mission is to enhance the operating room experience of patients and medical professionals worldwide. Our passion for innovation, quality, and safety drive us to create highly functional surgical positioning solutions that optimize results and reduce operating time through greater efficiency.

OUR VISION

Our vision is to improve quality of life for all patients and medical professionals by becoming the world's most trusted leader in innovative surgical positioning.

Surgical Beach Chairs

#800-0142 E-Z Lift Beach Chair

#800-0004 Powered Beach Chair

Our double-ball joint head positioning system safely secures the patient's head even with kyphosis patients

A light squeeze of the trigger engages the powerful piston system to safely lift or lower the patient

Any surgical OR table can be converted to a Beach Chair for arthroscopic surgery

**500 lbs (227 kg)
Patient Weight Capacity**

#800-0142
E-Z Lift
Beach Chair

Shoulder pull-away panels provide optimal surgical exposure

#800-0004
Powered
Beach Chair

A self-contained motor independent of surgical table power automatically lifts patients - accommodates patients up to 500 lbs (227 kg)

- #800-0146 12x Disposable TKR Boot Liners**

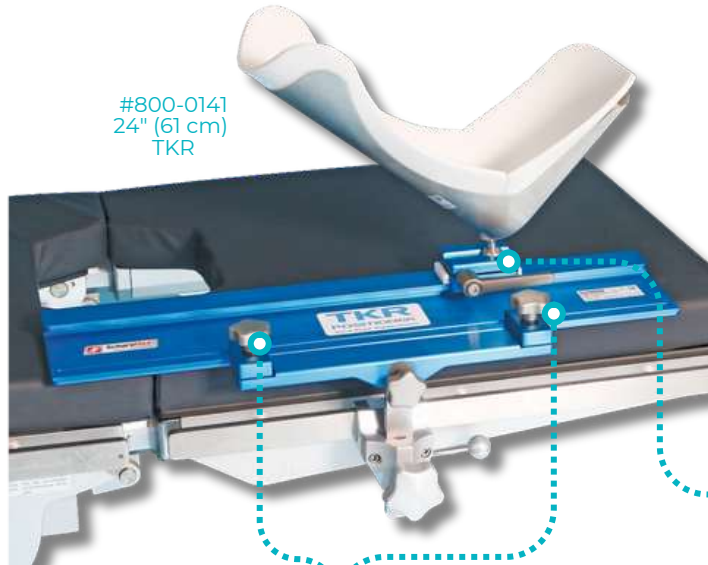

TKR POSITIONER

#800-0141 24" TKR Positioner

#800-0171 30" TKR Positioner

Place the operative leg in any degree of flexion to full extension

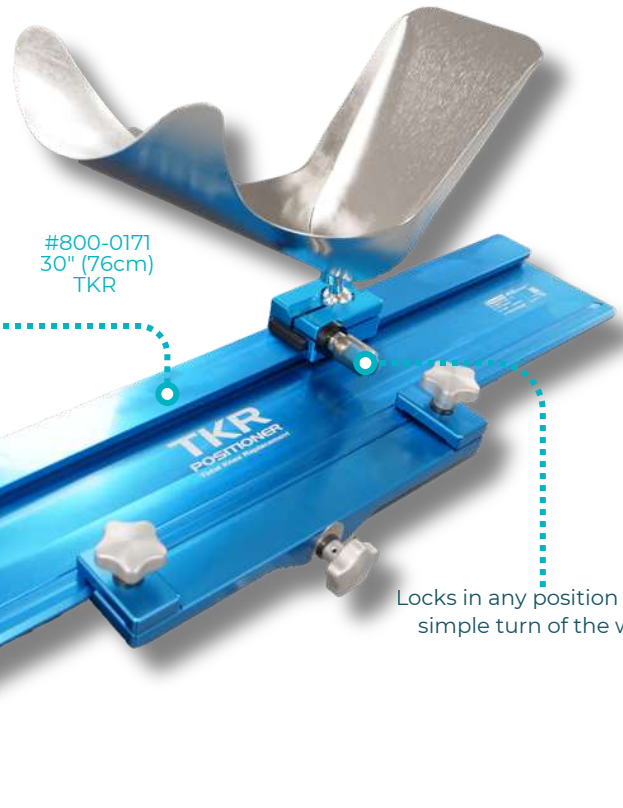

#800-0141
24" (61 cm)
TKR

Track locking bracket securely locks the Base Plate to the table with two thumb screws

The ball track system at the heel of the leg holder allows surgeons to tilt and rotate the operative leg.

Smooth sliding motion for effortless leg positioning

#800-0171
30" (76cm)
TKR

Locks in any position with a simple turn of the wrist

GENOS TKR POSITIONER

#800-0409 30" GENOS TKR Positioner

Pull apart system
allows for smaller
sterilization tray

Place the operative leg in any
degree of flexion to full
extension

Track locking bracket securely
locks the Base Plate to the
table with two thumb screws

The ball track system at the
heel of the leg holder allows
surgeons to tilt and rotate the
operative leg

Built-in stops on each end of
the track system prevent the
leg holder from sliding off of
the Base Plate

Locks in any position
with a simple turn of
the wrist

Smooth sliding motion for
effortless leg positioning

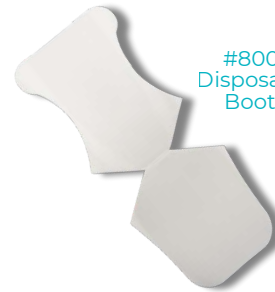

INCLUDED ACCESSORIES

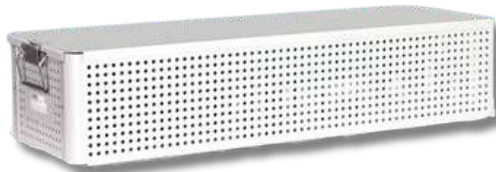

All components are
autoclavable (Exposure
Time at 270°F (132°C)
for 4 minutes)

Armboard

Locks 3 articulating joints
with a central locking
mechanism

NEXT
Generation

Beach Chair

The Ótimo offers ergonomic arm support for patients in the beach chair position, ensuring stability and comfort during seated or semi-seated surgical procedures

Prone

When patients are placed in the prone position, the Ótimo safely supports their arms, promoting secure positioning and unobstructed surgical access

Lateral

In the lateral position, the Ótimo is designed to provide optimal arm support, enhancing patient safety and maintaining proper alignment throughout the procedure

Supine

For patients lying in the supine position, the Ótimo delivers exceptional arm support, facilitating precise ergonomic positioning with ease

STEALTH

#800-0406

Positive locking infinitely adjustable ball joint design

Multi-dimensional concave pad for superior patient ergonomics and safety

**100% Radiolucent
Lightweight, Indestructible
Carbon Fiber**

Height adjustable for exact positioning with any size table
