

GENOS TKR POSITIONER

#800-0409 30" GENOS TKR Positioner

The ball track system at the heel of the leg holder allows surgeons to tilt and rotate the operative leg

Pull apart system allows for smaller sterilization tray

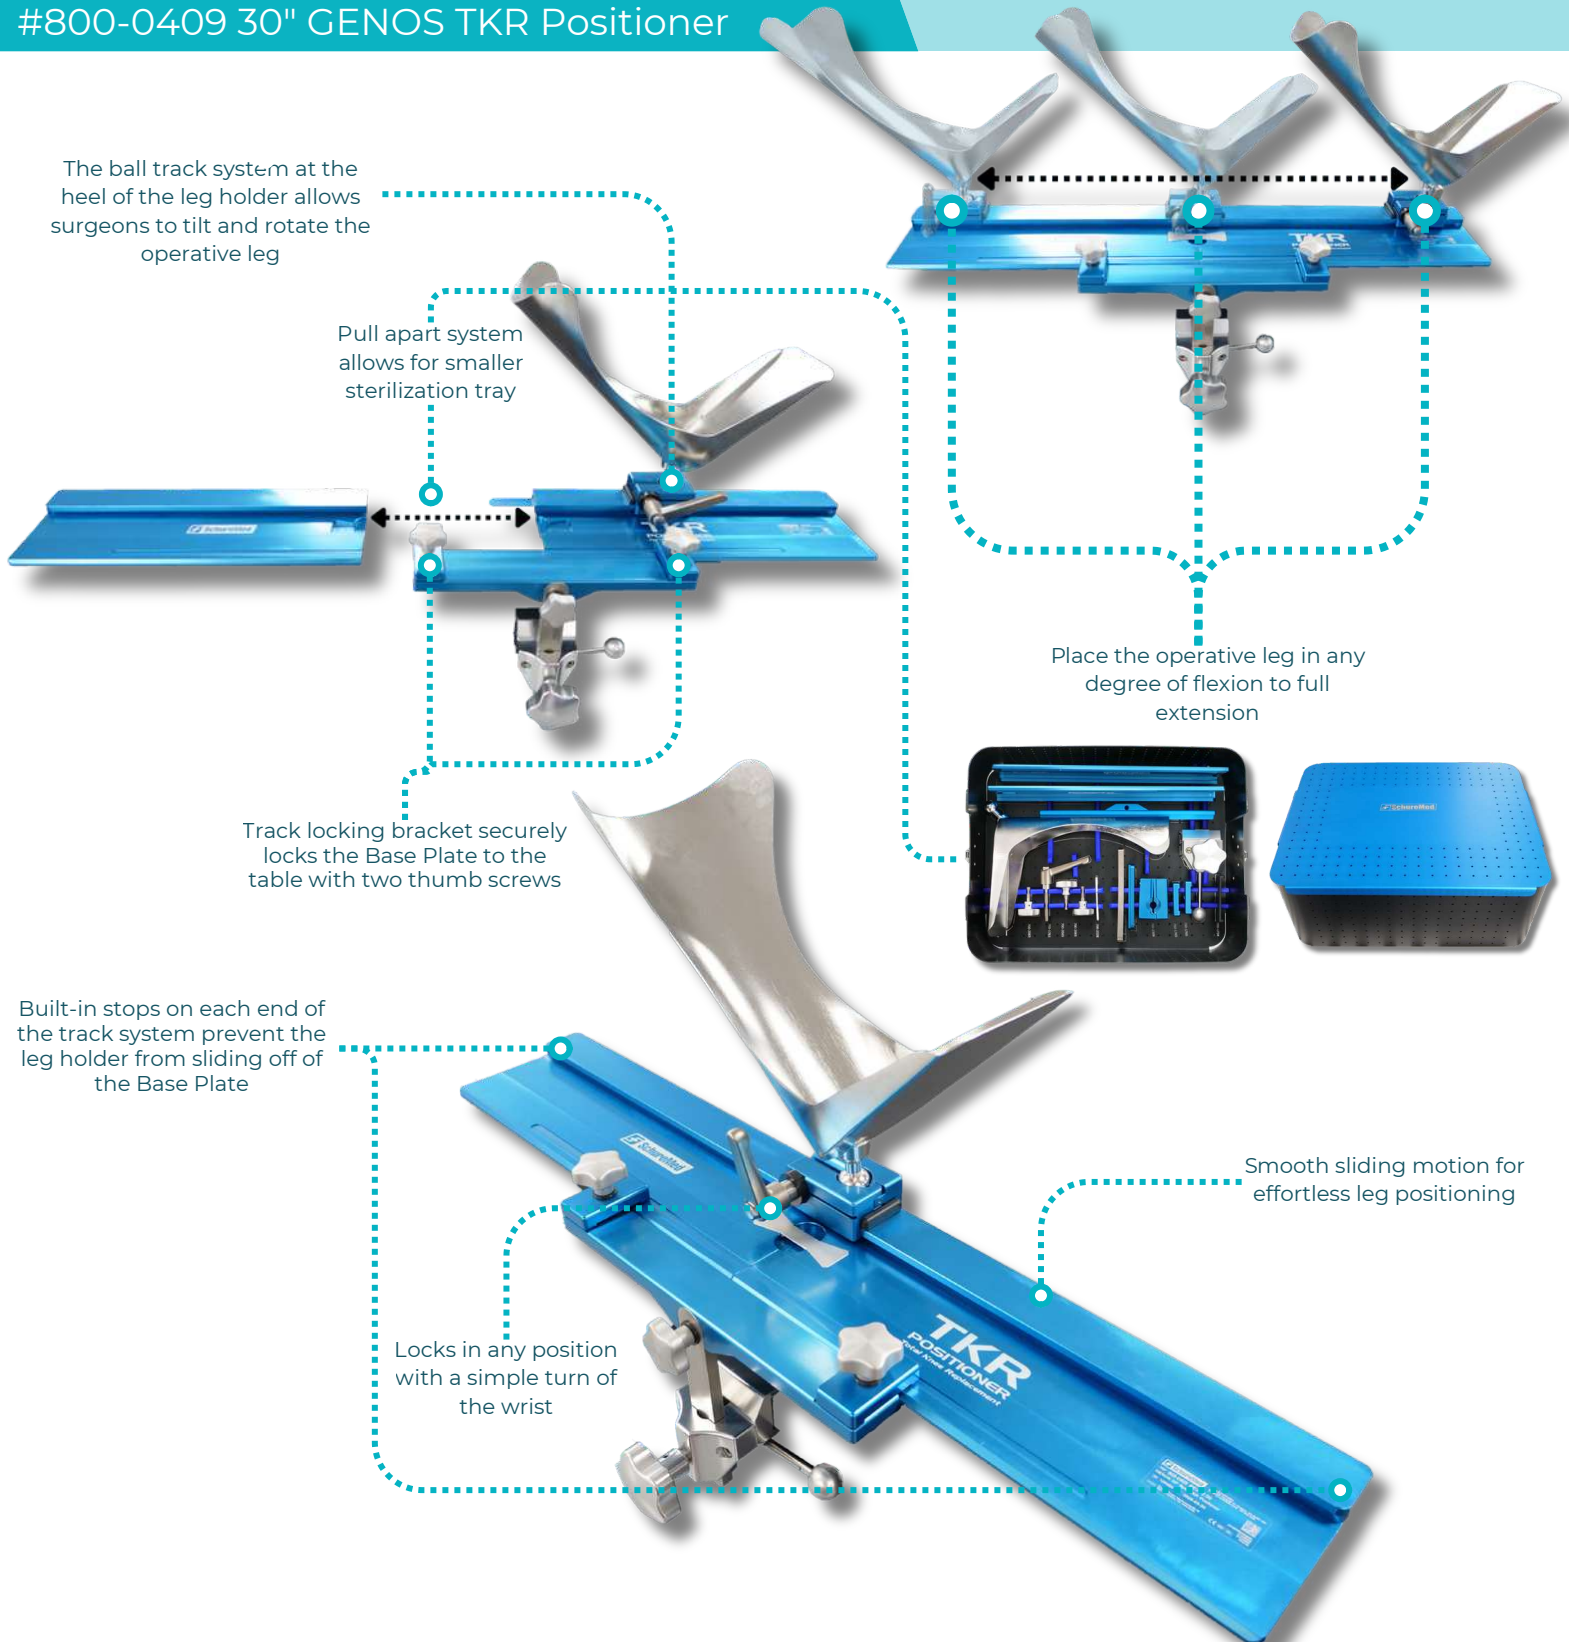

Track locking bracket securely locks the Base Plate to the table with two thumb screws

Built-in stops on each end of the track system prevent the leg holder from sliding off of the Base Plate

Locks in any position with a simple turn of the wrist

Place the operative leg in any degree of flexion to full extension

Smooth sliding motion for effortless leg positioning

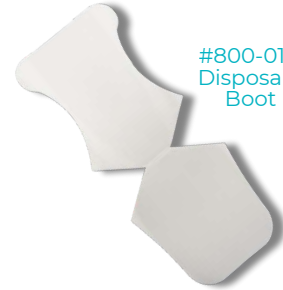

INCLUDED ACCESSORIES

All components are autoclavable (Exposure Time at 270°F (132°C) for 4 minutes)
